

Method Statement For Spray Bottles

- Step 1** Shake the bottle of Alpine Boot Fresh before use.
- Step 2** Dilute Alpine Boot Fresh as per the below Table of Measurements into a clean Spray bottle (no previous use with chemicals)
- Step 3** Using the mixture of Alpine Boot Fresh and water, give at least 3 sprays to the inside of boots, gloves or helmets.
- Step 4** Place each item onto a drying rack, until completely dry.
- Step 5** Once completely dry remove each item from the drying racks and store, or wear them.
- Step 6** After 10 days, if the dilution of Alpine Fresh Boot Spray has not been completely used, discard contents and rinse with clean water. The spray bottle is now ready for re-use.

Table of Measurements

1:10 Mix

Bottle Size	Alpine Boot Fresh Concentrate	Water
500 mls	50 mls	450 mls
1L	100 mls	900 mls
